Restaurant Liquor License No. R-13112

Docket No. 2011-CV-06698 (Lackawanna County)

Appeal to the  
Commonwealth Court of  
Pennsylvania

Note: Board Minutes are not officially approved until all required signatures are affixed.

Board Member Negra asked, Rod Diaz, Chief Counsel, to explain this matter.

Mr. Diaz explained that, acting pursuant to the Liquor Code, the PLCB revoked the license held by Club 530, Inc. because the license had been placed in safekeeping, and the safekeeping period expired without an extension having been filed. Club 530, Inc. subsequently appealed to the court of common pleas, and, on appeal, the court ordered the PLCB to reinstate the license, accept the late-filed renewal and validation applications, and waive the applicable safekeeping fees. However, Mr. Diaz further explained that the court of common pleas lacked the authority to take such action and that allowing its order to stand would set bad precedent. Accordingly, Mr. Diaz recommended that an appeal be filed with the Commonwealth Court of Pennsylvania.

Board Member Negra noted that a number of the proposed actions involve staff augmentation for IT-related services, and he asked Nicholas Melnick, Jr., Chief Information Officer, to provide some background.

Mr. Melnick explained that staff augmentation is provided through the Office of Administration (“OA”) to supplement staff where a shortage exists, and that the PLCB is already using staff augmentation to satisfy certain IT staffing needs.

Mr. Melnick indicated that the current procurement listing contains seven requests for resources totaling around \$600,000.00. The resources included provide key support to several areas of the PLCB’s operations.

Note: Board Minutes are not officially approved until all required signatures are affixed.

Mr. Melnick pointed out that Oracle ERP Retail and Business systems specialists are in demand and that one of the requested resources has significant application level experience with the financial systems used to manage the PLCB's business including sales audit functions and cash management.

Mr. Melnick also added that several of the other resources being requested provide specialized assistance for the database systems that manage and hold the PLCB's data. The applications interact with multiple tables and across systems requiring staff to monitor and manage systems, fix errors and ensure that systems are functioning as expected. Mr. Melnick noted that the expertise of such staff is essential to ensure that systems are working from the stores to central office and that messages are flowing to keep systems up to date.

In addition, Mr. Melnick emphasized that each set of applications requires specific skill sets due to the nature and complexity of the applications involved.

Mr. Melnick further explained that the PLCB continues to use staff augmentation for a number of reasons. Specifically, he indicated that when attempts have been made by the PLCB to fill positions through the Civil Service process, either no candidates applied or the candidates that did apply lacked the necessary skills and experience. Mr. Melnick also noted that while some staff augmentation resources have expressed interest in becoming PLCB employees, the PLCB is unable to meet the compensation demands of the specialists, and citizenship sometimes cannot be met.

Finally, Mr. Melnick observed that the ability to hire outside of the Civil Service process has been successful in other agencies, such as OA for SAP-related support, and in the courts, which use non Civil Service positions for IT-related functions.
