5. Request for RAMP Certification

RAMP certification is granted to the licensed premises upon successful completion of all five required components. Completing either the owner/manager or server/seller training alone does not grant certification to the establishment or the person completing the training.

Login or register for a PLCB+ account.

- Each individual (server, bartender, manager, lead) must have their own personal account for RAMP training.
- Licensees should have a general business account to manage their license and apply for RAMP certification.
